**I know you want a very special Christmas**

I know you want a very special Christmas.  
I know you want a very special Christmas...  
I know you want to spend your Christmas with me, with me;  
'Cause I have E.S.P.

You better be good, 'cause I have your present.  
You better be nice, 'cause I thought way ahead...  
And you won't be receiving another one quite like it,  
And there's nothing on earth that you'd rather have instead!
